Target version:	
Description Dear Maarten, I am opening an issue as you specified in the PyCAMA readme, because I cannot install the tool. This is what I get: \$ python setup.py install Traceback (most recent call last): File "setup.py", line 35, in <module> (<i>'doc', [doc_file[-1]]</i>), IndexError: list index out of range My Python version is 3.5. Is there anything that I am doing wrongly? Many thanks, Lidia Saavedra
