

impactportal - Bug #159

[WPS] When submitting a WPS job, the XML status document is sometimes not directly available --> Error

07/15/2014 02:22 PM - Maarten Plieger

Status:	Resolved	Start date:	07/15/2014
Priority:	Normal	Due date:	
Assignee:	Maarten Plieger	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>When submitting a WPS job, the impactportal tries to read the XML status document immediately. The file is sometimes not available resulting in an error.</p> <p>The error should not be shown, as a few ms later the file does exist. The portal should retry the XML read a couple of times before showing the error.</p>
