

PyCAMA - Support #27381

[PyCAMA] Update configuration file to resolve issue with reports for Cloud

07/30/2020 12:21 PM - Maarten Sneep

Status:	Resolved	Start date:	07/30/2020
Priority:	High	Due date:	
Assignee:	PDGS Operations	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Please update the configuration file for PyCAMA with the attached version of the configuration. This will resolve an issue found in the CLOUD reports on the QC site. This applies to both the forward processing and the processing of DDS2B.			
I'm hesitant to provide a new full configuration (REP_L2_CMR file), as we need to supply two, and the sequence numbers are already 'messy'. But please let me know if these files are required.			

History

#1 - 08/12/2020 01:25 PM - Deborah Stein Zweers

- Subject changed from [PyCAMA] Update configuration file to resolve issue with reports for Cloud to [PyCAMA] Update configuration file to resolve issue with reports for Cloud

#2 - 08/19/2020 02:39 PM - PDGS Operations

The new configuration file was updated in the operational as well as in the validation environment (DDS-2B).

#3 - 08/19/2020 02:40 PM - PDGS Operations

- Status changed from New to In Progress

- % Done changed from 0 to 100

#4 - 09/09/2020 11:06 AM - Maarten Sneep

- Status changed from In Progress to Resolved
