[ESG Security] No 'view' on data located at other ESG nodes as BADC and DKRZ

10/10/2013 10:22 AM - Wim Som de Cerff

Status:	Resolved	Start date:	09/04/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Currently it is only possible to view data from DKRZ and BADC, who accept our MyProxy certs.			
Solutions:			
1) Adding our current self signed certificate to the DKRZ ESG node (short term solution)			
2) Make a new cert and send a certificate signing request to PCMDI (as proposed by Stephen and Gavin)			
On 2) If Gavin agrees, we will send a CSR to him to get it signed and added to the ESGF			
Before solving, we should consider the possible change on ESG security			

History

#1 - 07/15/2014 02:10 PM - Maarten Plieger

- Status changed from New to Resolved

The certificate of the climate4impact myproxy server is recognised and installed on all ESGF nodes.
